Notice of AMI water metering project

The Newport Public Works Dept has begun to convert all water meters to an Automatic Meter Interface (AMI) system. When finished, this system will provide a usage reading every 15 minutes and allow rapid detection of customer leaks. Please be aware that Public Works may be replacing the water meter for your residence or business. This typically requires water service to be shut off for a few minutes, so a City employee will knock on your door and make sure water is not in use before replacing the meter. If you have any questions, please contact the Public Works Dept at 541-574-3366 or at o.sweetman@newportoregon.gov.
