Rate Schedule and Service Information

GENERAL TERMS OF SERVICE: All NW Natural rate schedules and terms and conditions of service (collectively referred to as the "Tariff"), as amended from time to time, are regulated in Oregon by the Public Utility Commission of Oregon (Oregon Commission) and in Washington by the Washington Utilities & Transportation Commission (Washington Commission). NW Natural's complete approved Tariff is published on the Company's website www.nwnatural.com.

- Except with respect to Rate Schedule 3, a Service Election Request Form is required to initiate service and to request any subsequent changes in Rate Schedule or service type. All Service Election Requests are subject to NW Natural's approval.
- Customers approved for Interruptible Service must complete and submit the Customer Emergency Contact List form and must ensure that such List is complete and accurate at all times. Any changes to the List must be submitted to NW Natural within 5 business days of the change.
- Customers are required to notify NW Natural within 10 business days of any sale or change in principal ownership of their business, and a new Service Election Request Form may be required.
- Customers may terminate service with NW Natural by giving notice not less than one billing month prior to the desired termination date. Failure to provide sufficient notice may result in the assessment of additional charges as described in the respective Rate Schedule.

EFFECTIVE DATE OF SERVICE: Following approval of a Service Election Request, service will be effective on the day the meter is activated, unless a different date is agreed upon between the Customer and the Company.

SALES SERVICE: This option applies to Customers that purchase their gas commodity from NW Natural. Service may be Firm, Interruptible or a combination of both and may be combined with Transportation Service. There are two commodity pricing options (Weighted Average Cost of Gas or "WACOG") available¹: (1) Annual Sales WACOG which is effective November 1 through October 31, and (2) Winter Sales WACOG which is effective November 1 through March 31. Under the Winter Sales WACOG option, Customer has an option to remain on Sales Service at a market based commodity price or to transfer to Transportation Service for the April through October time period. Other terms and conditions may apply as set forth in the respective Rate Schedule.

TRANSPORTATION SERVICE: This option applies to Customers that have entered into a commodity purchase contract with a third party supplier and the Customer pays NW Natural for the transportation of Customer's gas on NW Natural's gas distribution system. Service may be Firm, Interruptible or a combination of both and may be combined with Sales Service. Customer is subject to additional terms, conditions and charges associated with the management of Customer's gas balances as set forth in Rate Schedule T of NW Natural's Tariff. Other terms and conditions may apply as set forth in the respective Rate Schedule.

CHANGES IN SERVICE: Customers may request Rate Schedule or other changes in service by contacting NW Natural not less than 30 days in advance of the desired effective date of the change. Customer must sign a new Service Election Request Form. Some changes may only be made annually under the Annual Service Election provisions of the Company's rate schedules. Refer to NW Natural's Tariff and the respective Rate Schedule for specific restrictions and conditions.

Customers that transfer from Sales Service to Transportation Service may be subject to adjustments associated with any WACOG price differentials incurred during the time that the Customer had an approved sales service election. See the respective Rate Schedule for specific terms and conditions.

ADVANCED AUTOMATED METER READING (AAMR): If AAMR is required or requested, Customer must provide active and continuous telephone service to the AAMR device at Customer's expense. The telephone installation must comply with NW Natural's AAMR specifications, a copy of which has been provided to Customer if AAMR is required, or is otherwise available upon request. Refer to NW Natural's Tariff and respective Rate Schedule for additional restrictions and conditions.

SPECIAL DELIVERY PRESSURE ACKNOWLEDGEMENT: Where a Customer has requested a delivery pressure higher than NW Natural's standard industrial delivery pressure of 5 psig, Customer acknowledges, understands and agrees that NW Natural cannot guarantee that Customer's requested delivery pressure will be maintained at all times, and that as a result, service to Customer's gas service may be temporarily interrupted at any time. NW Natural will make reasonable efforts to restore Customer's service at the requested delivery pressure as soon as practicable under the circumstances.

¹ For Rate Schedule 3, only the Annual Sales WACOG option is available.

---------------	-------------	---------	---------	----------	-------	---------	-----	----------	-----------	--------

* The highest gas use during a day within the Peak Period is multiplied by the Firm Pipeline Capacity Charge and is a part of the rate schedule 31 or 32 Peak Demand Day annual cost.

** Assumes single Service Type customer on Annual Sales WACOG (weighted average cost of gas) and 04/01/19 rates. Effective 01/01/19, the annual cost for an Oregon commercial customer on rate schedule 3 CSF (commercial sales firm) or 31 CSF includes a 4.43% Public Purposes Funding Surcharge. Additional taxes or charges may apply.

** Does not include all franchise taxes, meter rental, standby, Advanced Automated Meter Reading device, Coos Bay, special location-related fees, or miscellaneous charges.

*** Total annual cost on a per therm basis is based on a particular gas usage profile, and will vary by therms used and year.

Monday, September 09, 2019

Spencer,

I met recently with NW Natural to discuss possible savings for the City, via a rate adjustment. Please consider signing this approval for a rate adjustment with NW Natural for the Aquatic Center account. I have included the supporting documents that show that we qualify for a significant savings on our natural gas bill. (Nearly \$12,000 annually.)

I have included the contact information for our account manager, if you have any questions.

Thanks!

A handwritten signature in black ink, appearing to read "Kathy Cline", followed by a long horizontal line that tapers to the right.
