

Exemption to Geologic Permit Requirement

Property Address: _____

Assessor's Map & Tax Lot: _____

Property Owner: _____

Requested by: _____

Pursuant to NMC Section 14.21.020(C), I am providing evidence that work will occur outside of a bluff or dune-backed shoreline hazard zone or landslide-risk areas, and no further review is required. *(Submittal of a site plan or hazards map showing the property and the area in which work will be performed is required.)*

Pursuant to NMC Section 14.21.040, work involves one or more of the following activities, which are exempt from the provisions of the Geologic Hazards chapter. *(Please mark what applies.)*

- Maintenance, repair, or alterations to existing structures that do not alter the building footprint or foundation;
- An excavation that is less than two feet in depth, or which involves less than twenty-five (25) cubic yards of volume;
- Fill that is less than two (2) feet in depth, or that involves less than twenty-five (25) cubic yards of volume;
- Exploratory excavations under the direction of a registered engineering geologist or geotechnical engineer;
- Construction of structures for which a building permit is not required;
- Removal of trees smaller than 8-inches dbh (diameter breast height);
- Removal of trees larger than 8-inches dbh (diameter breast height); provided the canopy area of the trees that are removed in any one year period is less than twenty-five percent (25%) of the lot or parcel area;
- Forest practices as defined by ORS 527 (the State Forest Practices Act) and approved by the State Department of Forestry;

- Maintenance and reconstruction of public and private roads, streets, parking lots, driveways, and utility lines, provided the work does not extend outside the area previously disturbed;
- Installation of utility lines, not including electric substations;
- Emergency response activities intended to reduce or eliminate an immediate danger to life, property, or flood or fire hazard.
