Pool and Road Closure June 2017

by Tim Gross, Director of Public Works/City Engineer

The Newport Aquatic Center and the road between the Aquatic Center and the 60+ Center will be closed the first week of June between June 5, 2017 and June 10, 2017 for corrective work as part of the project.

As with any project, several things have arisen over the first couple of months of operations that require corrections and/or modifications. This requires the pool to be taken out of service for this period of time. Corrective work will also be done on the parking lot between the 60+ Center and the Aquatic Center requiring the closure of the lot/road in this area.

Access will be available to the City Hall complex through the entrance at the intersection of SW 9th and Angle Streets. Thank you for your patience. If you have questions or concerns, please contact the City of Newport Public Works Department at 541-574-3366.

Thank you. -Tim

One-week closure for a bit of corrective work.
